Livestock Health Prediction Report

Prediction Result

Animal	Cow
Health Status	Disease
Predicted Disease	Ketosis Subclinical
Prediction Probability	59.54%
Isolation Recommendation	NO
Prediction Time	25-09-2026 10:51:04

Isolation Note: Routine isolation is not indicated by the prediction alone.

Animal Parameters

Parameter	Value
Age Months	33.0
Animal Type	Cow
Body Condition Score	3.0
Body Temperature C	36.0
Breed	Holstein-Friesian
Feed Quantity kg	5.0
Grazing Duration hrs	5.0
Heart Rate bpm	52.0
Milk Yield L	3.0
Respiratory Rate	20.0
Resting Hours	10.0
Rumination Time hrs	5.0
Walking Distance km	5.0
Water Intake L	10.0
Weight kg	400.0

Important: This report is an AI-based prediction from the supplied animal parameters. It is not a confirmed veterinary diagnosis. The isolation recommendation is precautionary and should be confirmed with a veterinarian.
